NEW YORK, Sept. 13.

Among the great events which have transpired this side since the sailing of the steamer Philadelphia, on the 28th ult., are the admission of California, the settlement of the Texas Boundary, the organization of New Mexico and Utah as Territories, and the arrival of Jenny Lind, the Queen of Song.

California is admitted with her free constitution and her own chosen boundaries. Her Senators and Representatives have taken their seats. They make motions, offer resolutions, and vote just the same as other members, and still the Union stands as firmly as ever. I understand that some of those gentlemen who have been prophesying dissolution as the result of California's admission, have been examining Mason & Dixon's line, with the expectation of finding some signs of the anticipated "bust up," but they have thus far failed to discover a single fissure. South Carolina and General Quattlebum remain exactly where they were before the addition of this 'bright particular star' to our glorious constellation. It is stated that a few hot heads at Charleston got up a pow-wow on the receipt of the news, at which they "uttered bulky words," trailed the American flag in the dust, and blotted out ever so many of its stars. Of course this kind of innocent amusement, so long as the demonstrations are confined to the poor inanimate flag, only excite ridicule. But let these gentlemen once commence overt acts of treason, and I'm mistaken if they dont find that that same flag has *stripes* as well as stars on its ample folds.

After failing to put California through in an omnibus, an attempt was made in the House to put her into a cab, along with Utah, but she obstinately refused to ride in such company, and finally, in coming up her own strength. "solitary and alone," as Col. Benton stood, once on a time, when he "set that ball in motion," she passed through the House by a vote of Yeas 150, Nays 57. The nays were of course the Southern madcaps, who have been so long threatening dissolution, blood, and several other very terrible things in case California is permitted to come in with such a constitution as her people prefer.

In the House, Mr. Venable, of N. C., objected to Messrs. Gilbert and Wright taking their seats, upon the ground that their election had not been regular and legal, and moved that their credentials be referred to the Committee on Elections. The day was spent in discussing Mr Venable's motion, without coming to a decision. On the following day, your members were admitted, by a vote of 109 to 59. In the Senate the same day, Mr. Fremont introduced three bills in regard to California, viz: Extending the laws and judiciary system of the United States over California, appointing a Surveyor of the Public Lands to reside there, and to provide for keeping the peace between the whites and Indians.

The people in this vicinity have now forgotten almost everything else in their wild admiration of Jenny Lind, who arrived on Sunday the 1st inst. Thousands and thousands of our citizens flocked to the wharf to catch a glimpse of the fair songstress as she landed from the boat and then followed her carriage to the Irving House, where the immense crowd kept up an incessant cheering and shouting till she made her appearance at the balcony of the hotel and for a long time thereafter.

It would be quite impossible for me to give an adequate description of Lind's reception by the immense audience at her first concert. On her appearance they rose en masse, and such bravos, such waving of handkerchiefs, such an enthusiastic outburst, I never heard nor dreamed of before, and all this before they had heard a single warble. But I can only tell you that when she did sing, the audience was not disappointed, and refer you to the papers for descriptions and critiques.

Mr. Barnum, as you are doubtless aware, brought Jenny over the water. He engages to pay her $1,000 per night for 150 concerts, pay all her expenses, and in addition give her one half the profits of the enterprise She has already given away her half of the first night's income, presenting to the New York Fire Department $3,000, to the New York Musical Fund $2,000 and to various Orphan Asylums and other charitable institutions each $500, amounting in all, to something over $10,000.

She was much pleased at the orderly and genteel appearance of our Firemen, who turned out in large numbers, on the occasion of her landing, and thought the "Fireman's" as the calls them, ought to have a good share of her bounty, especially as she had learned, much to her surprise, that they receive no pay from the city. She had determined to appropriate her share of the entire proceeds of the 149 concerts yet to be performed, to the establishment of Free Schools in Norway and Sweden. It is seldom we find united in the same person the disposition and capacity and to do so much good to the world. The people reverence and love Jenny Lind, and it is right they should do so, for she is great and good.

The latest news from Texas is that that state has concluded not to send any troops against New Mexico. The legislature passed an ordinance submitting to the people of Texas the question of the acceptance or rejection of the boundary and ten millions, proposed by Congress, and adjourned on the 5th inst. Of course the people will approve the adjustment. Any thing can pass any where on this side that has ten millions depending, though I don't know how it may be over your way, where the filthy lucre is presumed to be more accessible than in these "diggings."

The administration has finally found a man willing to accept the place of Secretary of the Interior. The individual is Hon. Alexander H. H. Stuart, formerly a member of Congress from Western Virginia. His nomination has been confirmed by the Senate. The place had been previously offered to Charles J. Jenkins, of Ga. and one or two others I believe.

The election in Vermont has resulted in the choice of Charles K. Williams, whig, as Governor, with other whig state officers, and whig legislature. Hebard and Meacham, whigs, and Bartlett, democrat, have been elected to Congress, and in one district there is no choice.

In Maine the recent election has resulted in the choice of John Hubbard, democrat (the present incumbent) as Governor, and a democratic legislature. The returns for Congress are not complete, but the delegation will probably stand five democrats to two whigs, though it may be four democrats and three whigs.

The Whigs have seven majority in the Maryland Convention for the revision of the Constitution of that State.

The New York Democratic State Convention is now in session at Syracuse; Hon. C. F. Dunimy, of Steuben, President. I hope to be able to announce the nomination for Governor, &c., in this letter, but I fear I shall not receive it in time for the steamer. The Hon. Horatio Seymour, of Oneida, will probably be nominated for Governor. Yours, &c,

MANHATTAN.

P. S. The House of Representatives yesterday passed the fugitive slave bill by a vote of 109 to 75. The bill passed as it came from the Senate and only requires the signature of the President to become a law. I sent you an abstract of the bill in my last letter.

In the Senate the bill supplying deficiencies in the pay and milage of members was amended so as to require the milage of the Oregon and California members to be reckoned by the shortest traveled route, being the overland route via the South Pass. Mr. Gwin tried to have it fixed so as to draw mileage by way of the Isthmus, but failed.

A bill for the abolition of the Slave Trade in the District of Columbia is now before the Senate and will no doubt be soon passed into a law.

The cholera has nearly disappeared from the cities and villages of the south and west.

Freights for California are going forward briskly at 60 to 90 cents per foot according to the sailing qualities of vessels. Considerable coal is being shipped at $20 per ton, freight.

The market is glutted with the most luscious of peaches, which can be purchased from one dollar down to nothing per basket. Much I fear that the peach season will depart before Dennis Hannegan's baloon express for California will be ready to sail—fly, I mean—in which case I shall be unable to fill your order for that dozen baskets of 'Morris whites.'

Adios, MANHATTAN.

KLAMATH GOLD MINES, River and Town—One of the most extensive fields for speculation at present in California.

The attention of the public is now called to this very important part of California. The town of Klamath is situated on the bank and at the vicinity of the mouth of a river, upon the numerous tributaries of which the most productive and extensive gold mines have been discovered of any now in existence in California. The Harbor (at the upper end of which this beautiful town site is situated) is both commodious and secure, and possesses the very superior advantage over all the other ports upon the coast between the Columbia river and San Francisco of a perfectly safe entrance. The river is a magnificent stream and navigable by steamers, according to the opinion of steamboat captains and others in every way competent to judge of the matter, at least 70 miles up; at, and even below which point, these very rich gold mines commence. Merchants and capitalists who are desirous of realizing a handsome profit upon their goods and an enormous return for their capital cannot enter into a better speculation or make a more safe investment of their means in any part of California, from the fact that there are at present about 2000 miners at work upon this river and its tributaries; and there is every reason to believe, from the numerous satisfactory statements of the miners, relative to their success during the last year, that next year there will be many times the number. The immediate rush to these mines from all parts will be immense, and in fact almost unprecedented; and this town, which may be said to be adjacent, in consequence of the water communication into the very heart of them, must and will undoubtedly be insured a speedy and almost magic growth, and by this time next year will be a very respectable rival to (if not totally eclipsing,) Sacramento and Stockton. Miners who have, during the last summer expended to such a deplorable extent their useless toil and labor in the southern mines, and have actually lost money in the place of making it, by the unsuccessful and numerous damming operations, and the scarcity of gold there, are strongly recommended to turn their attention to these mines, as the average amount dug last year, putting it at an infinitely lower estimate than from the statements of the miners we would be warranted in putting it, one ounce per day to the man. This alone is sufficient to justify the opinion that there is ample room for more, and when it is taken into consideration that not over one-tenth part of the gold region has as yet been explored, the certainty of room is rendered beyond doubt. The enormous tax upon the miners for packing of provisions will next year be effectually obviated by the aid of water communication, which extends into the very heart of the mines. Goods can be taken from the deck of steamers by the miners in the place of the pack-saddle of the mule, and provisions now furnished at an expense of $1 50 for the mere packing, can be afforded for ten cents, thus enabling the miner to lay by the fruits of their labor, instead of expending so great a quota for subsistence. To persons wishing to invest capital to an advantage in town lots, an almost unparalleled money making speculation is now open; as lots at the present time can be procured at a comparatively low figure, and the price that they will be disposed of next spring will be high. Arrangements have been made for a steamer to ply between the town and the mines, which will warrant to miners the supply of provisions forthwith.

A map of the town and river can be seen at Messrs. Shultz & Palmer's, foot of Jackson street; at Bullett & Patrick's, corner of Jackson and Sansome streets; and at Worthington, Beale & Bunting's.

FINANCIAL CONDITION OF THE STATE.

Now that the long and painful suspense is ended by the cheering intelligence that California has been received into the Sisterhood of States; now that the public heart is animated with emotions of joy at the brilliant destiny which this tardy measure of justice to her only the more firmly assures; it is important that a matter so essential to our vital interests, as that of establishing and sustaining the public credit, be not lost sight of amid the general rejoicing.

It is a settled doctrine that no State can long exist, or at least cannot be really prosperous, unless possessed of revenue sufficient to meet the ordinary expenses of government. The crippled condition of California in her financial affairs has operated very prejudicially upon the business of her citizens, as is well known to all who are conversant with the depressing effect which depreciated State credit exercises throughout the channels of trade. The estimates of the amount of State revenue, founded upon the assessment valuation of real and personal property, poll tax, and the impost upon foreigners working in the mines, will utterly fail to be realized. The migratory habits of a large portion of our population, as well as the want of permanence among so many of the business community in the cities and towns of the the State, renders the collection of taxes extremely difficult; and the fiscal year is fast drawing to a close without any reasonable prospect of the treasury being in a condition to meet the demands of the public creditor upon it.

The rate of taxation levied upon our citizens for the various purposes of State and local expenditure, is larger and more onerous than was ever before imposed in any civilized community upon earth. It cannot be borne by the present population, except to the great detriment of every kind of business, the driving from us of men of capital, and the ruin of thousands. In our sister city of Sacramento, a tax of *four and one half per cent* is laid upon the property of the city, while here, including assessments, it will scarcely be less. Now to collect this sum is next to impossible, and payment will surely be evaded in every instance that it can be. Unless, therefore, some measures be taken to relieve the people from these oppressive burdens, the disastrous effects will be felt for years in retarding the growth and prosperity of the State.

The hope which many people have that Congress will give to California a sum of money—a million of dollars or more—is too uncertain to be entitled to any weight. We must act for ourselves, and by our own wisdom devise the "ways and means" to sustain the government we have formed.

For ourselves, we have not in any respect changed our formerly expressed opinion, that the only remedy for the financial embarrassments of the the State is to be obtained through the action of the Legislature. In a little more than two months the *first Legislature* will expire by constitutional limitation, and with it the power to raise, by loan, the necessary means to put the financial affairs of the State in a prosperous condition. It will be far easier to raise a million of dollars by taxation next year than one half of that amount this; and the re-payment of a loan would fall easily upon the increased population and resources of the next few years, which would relieve those who now are groaning under a weight of taxation already pressing down the energies of the people.

We are, then, in favor of an EXTRA SESSION OF THE LEGISLATURE: and we deem the admission of California into the Union as creating the "extraordinary occasion" which the Constitution contemplates as necessary to justify the Executive in assembling that body. It is incumbent not only to use the power vested the first Legislature to provide the means of liquidating the necessary expenses of the State, but also to make such needed alterations in the laws as shall bring them into harmony with those of the federal government. The tax laws need revising; there are, besides, matters of the utmost ...t call for *prompt action*, in order to relieve the State from the embarrassments under which she is laboring; and without which, affairs will go on "from bad to worse" till the State is driven to the brink of bankruptcy, if not to actual repudiation. So far as we understand the opinions of the people, we believe a vast majority of them are in favor of an Extra Session; as by the action of the Legislature only can California be placed in the proud position which she is entitled to occupy, and in which it is the desire of every one of her citizens to see her stand.

We hope the people will take this matter into immediate and earnest consideration, and to lose no time in urging upon the Executive, by petition or otherwise, immediate action in this important and indispensable measure—which we deem the turning point in the destiny of the Empire State of the Pacific. Let the press also speak out; and let all unite in doing whatever is necessary to consolidate the prosperity and add to the glory of California, so that the peans of rejoicing which now awake the echoes from every mountain peak, and valley, may have no dark cloud of discontent to cast a shadow over the hearts of the people.

ADMISSION CELEBRATION.

By a notice in another column, it will be seen that a meeting of the officers of the Army, committees appointed by organized societies, &c., together with the joint committee appointed by the Common Council, will meet this afternoon at 3 o'clock, at the Mayor's office, for the purpose of making arrangements to celebrate the adoption of California into the Union.

It is to be hoped that there will be a general attendance, and that all organized bodies will be represented, in order that there may be as much harmony of action as possible, and thus make the occasion one of the most memorable in the history of California. On the evening of the day elected for the public celebration, a grand ball will take place, of which a notice is published elsewhere.

THE SAN JOAQUIN DISTRICT.—An affidavit, signed by one Joseph W. Thomas, appeared in the Stockton papers immediately after election, stating his vote was received at Islep Ferry polls, and passed in by a second person. In answer to this, the Inspectors of the election make affidavit that the vote of Thomas was *rejected*, and that no use was made of his name as a voter. They further state that the polls were opened before any votes were taken, or any voters came to the polls.

This statement, so far as Thomas' affidavit goes to sustain the charge of illegal voting, effctually settles the question. What further charges of fraud will be brought forward to sustain the claims of Mr. Fair—who, we presume, will insist upon nothing wrong—remains to be seen.

FOR OREGON.—The steamer for Oregon will leave this afternoon, and will carry a number of passengers. Among them will be found our old and valued friend, Thomas J. Dryer, Esq., recently editorially connected with the *Courier*, on his way to Portland, to establish a newspaper. His office is already there. Mr. D. will bear with him the kind regards and warmest wishes of innumerable friends for success in his new field of labor. He is just the man for a new country. Energetic, bold, and talented, he will do much to advance the interests of that young territory.

DROWNED.—William Redmond, a young man aged about 24 years, from Portland, Me., in attempting to draw a bucket of water, on board the New World, while coming down the river last Saturday, fell overboard and was drowned. Capt. Wakeman stopped the steamer as soon as possible, and the mate and Mr. J. J. Ames got out a boat, but the poor fellow sunk before they could get to him. He was working his passage down to this city, and had no baggage except his bedding.

HARPERS' NEW MONTHLY.—Mr. Still, the newspaper Agent, in the St. Francis Building, received by the last steamer, number four of Harpers' New Monthly Magazine. He has also newspapers from every section of the Union.

MURDER AT THE MISSION.—A negro was murdered at the Mission Dolores, Saturday morning. He was stabbed in various parts of his body, and shockingly mutilated. Suspicion fastens upon an Indian as the perpetrator of the outrage.

INQUEST.—Coroner Gallagher held an inquest, Saturday, upon the body of Margaret Lamott, found dead in a house in Happy Valley. Verdict—Death from ah apoplectic fit.

SANTA CRUZ.—Mr. Kellogg, Democrat, has been elected member of the Assembly, from this county, and F. R. Perlee, Judge.

AUCTIONS THIS DAY.—Lafitte & Co. will sell this morning, at half past 9 o'clock, a variety of Groceries, &c.

Also, J. B Huie & Co., at the usual hour.

CALIFORNIA ADMISSION BALL.

A large number of citizens, subscribers to the Ball, assembled at the American Hotel, Saturday evening, for the purpose of making arrangements for the Grand Ball. Gen. Wilson was called to the chair, and Col. J. D. Stevenson and J. Middleton, Esq., vice-presidents, and A. Bartol, Esq., secretary.

On motion of Hon. R. N. Morrison, it was resolved that a committee of five be appointed for the purpose of reporting the several suitable committees for the purpose of making the necessary arrangements for the ball. It was resolved that the managers of this ball make their arrangements to co-operate with the authorities, and the ball be given upon the same day that the public demonstration shall be made.

The following gentlemen were appointed:

STOCKTON MATTERS:—The Times says an immense quantity of provisions and winter goods have been purchased in Stockton for the Southern mines, principally for Tuolumne Co. Seventy-four wagons heavily laden, were counted in one day, last week, between Stockton and Sonora, and one hundred and two on Thursday.

A murder was committed in Stockton on Thursday evening last. A man named George Baker, got into a quarrel over a game of cards, and afterwards came in collision with one of the players named Korney, whom he stabbed in the side twice with a large knife, and who died on the following day. George M. Smith was afterwards fired at twice, one ball passing near his head, and the other through his ear. Baker was committed to answer in the default of bail, for $5,000.

A PLANK ROAD FROM ALVISO TO SAN JOSE.—A project is now on foot to secure the early completion of this work, which will be so much needed the coming winter, and which we are glad to see promises to be speedily effected. A company is now forming in San Jose and this city, for this purpose. The stock will be valuable and richly productive. A new channel leading to the embarcadero has just been discovered which renders the navigation of the *estero* very easy. Mr. Powell of Alviso, is now in this city with the view of obtaining subscribers to the stock, which no doubt can readily be found. The news of the admission is calculated to aid this as well as every other enterprise now before the people.

CHIEF ENGINEER.—The election of a Chief Engineer, and two Assistant Engineers of the Fire Department, took place in the Empire Engine House on Saturday last. The following is the result of the balloting:

For Chief Engineer, F. Kohler, 288; Geo. H. Hossafross, 286.

For Assistant Engineers, E. M. Ebbitts, 565; T. K. Battelle, 294: F. Whitney, 285.

F. Kohler was declared elected Chief Engineer, and E. M. Ebbitts and T. K. Battelle, Assistant Engineers.

On the question of salary, 238 votes were cast in favor of the Chief Engineer receiving a salary, and five votes in opposition.

THE NEW WORLD.—A friend of ours gives us the most glowing description of a pleasure trip he made to Sacramento city last week, on this favorite steamer, of the "people's line." He says, "Captain Wakeman is one of the jolliest sons of Neptune that ever trod a deck, and would be a 'model' steamboat commander in any part of the world. The Clerk is not only a gentleman, but a *very agreeable* one, and while the Steward is overseeing the culinary department of the boat, *that* bar-keeper is compounding punches as delicious as 'the nectar that Jupiter sips" Take her 'all in all,' there is not a superior to the New World on the waters of the Sacramento."

CELEBRATION BADGES.—We have been presented by Atwill & Co, with several badges, which are very appropriate to be worn on the day of the celebration. Over the State seal is a spread eagle, bearing a scroll in its beak, with the words, "Welcome California." Beneath the seal are the Pacific waves, and over them, "I Rise to Join Thee." The badges are exceedingly tasty and appropriate.

NATIONEL SALUTE.—On Saturday, at noon, a grand salute was fired by the United States' vessels at Sancelito, in honor of the young State of California.

SAILING OF THE STEAMER.—The Columbus left her moorings promptly at the hour named, on Saturday, carrying to their homes about 150 passengers. She also took a considerable amount of treasure.

From our Regular Correspondence.

Washington City, Sept. 10.

Editor of Pacific News:

I greet you with a shout. You are a citizen of the State of California, and a new star glitters in the national constellation. The first flag displaying thirty-one stars was hoisted by Major Heiss, one of the noblest fellows within the area of freedom. This event took place on Saturday the 27th of August, on which day was launched at Baltimore a beautiful steamer built by Major Heiss and others. She is designed for the Pacific, and will leave far her destined port so soon as her machinery is put up. She was built at the ship yard of J. S. Brown & Co., and her dimensions are 150 feet in length, 27 feet beam, and 16 feet depth of hold. The launch was a splendid affair, and as she glided into the water, Col. Bliss christened her the "Pampero," She is to be commanded by Capt. W. W. Hunter, U. S. Navy, who is quite celebrated for his ingenuity in steam engineering. The whole work has been carried on, under the superintendence of Capt. A. McCausland, who speaks of her *tout ensemble* in the most superlative terms, and defies the two oceans to produce her match. No money has been spared to make her unsurpassable, and they all think they have got what they paid for. The Major goes aboard of her to make a few calls in California, and may take a few cracks at the quartz rock before he comes back. He is, you know, partner with Com. Stockton in the best gold mine of Virginia, and understands where the elephant is vulnerable. But here I have been sailing off in the Pampero to the utter neglect of the great topics of the day. After a session of nearly ten months Congress have within the past week, passed

1st, The Texas Boundary bill.

2d, The bill organizing the Territory of New Mexico.

3d, The bill admitting California as a State.

4th, The bill organizing the territory of Utah.

It is the cry of many that the present Congress have wasted all their time. For my part, I do not think that they have wasted a single hour. To be sure, very little general business has been transacted. Even the Appropriation bills have been delayed beyond former precedent. Many of the accounts have been entirely exhausted for months, and multitudes of public officers could not get their pay. But what of that? The great interests of the country have been discussed thoroughly, and bright constitutional truths have been exhumed from the mass of fanatical rubbish which has been accumulating over them for years. The moral sense of community had been so long excited on this question of slavery, that a great proportion of our good fellow-citizens were losing sight altogether of the landmarks of the constitution. These non-reflecting brethren have been shocked out of their mental lethargy. The compromises of the Constitution are certainly better understood than they have been for thirty or forty years past. It is agreed on all hands that the doctrine of non-intervention is the only legitimate ground. Gen. Cass proclaimed it years ago, and was denounced and ridiculed by some, but no one abuses him now for it. The present administration, both Taylor and Fillmore, have been compelled to acknowledge it as the best, and indeed the only policy, and the present Congress have confirmed the doctrine by their statutes. There is but one bill more before Congress bearing on the rights of the South guarantied by the constitution, viz: the Fugitive Slave bill. This has passed the Senate and will soon be taken up by the House. I think it will pass. I fully appreciate the reluctance of many citizens born and educated in non-slaveholding States to restore runaways. But it is just and right nevertheless; and no good American citizen would expressedly or impliedly repudiate the constitution under which we became a nation.

What glorious times we had here in Washington on Saturday last!—for on that and the preceding day the four Senate bills I speak of, were concurred in by the House. Every man looked happy, and greeted every one he met, whether acquainted with him or not. At night the Marine band came up from the Navy Yard and serenaded many of the most prominent leaders of the Senate and House. Mr. Clay had gone to Baltimore, but his quarters were illuminated, and were honored with Hail Columbia. Then Mr. Webster, General Cass, Mr. Foote, Mr. Douglass, Mr. Dickinson, General Houston, Mr. Rusk, Speaker Cobb and others, had to "face the music" and say something to the boys. Every sentence came hot from the heart, and the hurras rolled through the air like thunder.

Every speaker had something to say about the Union, when a quick and fierce shout would burst forth drowning the voice of the orator and shaking the air so that no throne could have stood under the concussion. I trust the breeze which carried it across the Atlantic may stir some of the royal cat-locks ... let us all thank Divine Pro... for his jealous and affectionate care of this great Republic. Verily the rains *have* descended, and the winds and storm have beaten, but the house still stands upon the rock, and the gates of hell shall not prevail against it.

The new President gets along pretty well with the help of the democracy. The whigs have been so cut up by disunionists and free soilers that the government could not look to its political friends to sustain it. The magnanimous democracy, however, stepped forward in the crisis and has fairly worked the vessel of state into a safe harbor. The Department of the Interior still goes begging. It has been declined no less than five times. There seems to be some trouble. Divers explanations are given, but I do not pretend to be far enough behind the curtain to vouch for the authenticity of them. You can see what various conjectures fill the papers. You may believe whatever you find most grateful to your bump of credulity.

The slavery question settled, the next most exciting topic is Jenny Lind. The New Yorkers welcomed her, on her arrival about two weeks ago, with a crowd of 30,000, which swelled to 50,000 by the time she reached the Irving House. Her first concert takes place to-morrow night at Castle Garden. The highest price given for a ticket was $225. The lucky purchaser was Genin the hatter, on Broadway. This was a fine speculation for him. Every paper in the United States and in Europe will publish to its readers that Genin is a fashionable hatter in Broadway, New York.—Were he to advertise, formally, to the same extent, he would need a bit of California to pay the printers' bills. Aren't we Yankees cute? The tickets sold for this concert amount to more than $30,000.

To-day the Senators and Representatives from the State of California expected to take their respective seats. The Senators were allowed to take their arm chairs, but the Representatives are kept in suspense. Some conscientious members oppose their admission on the score that they were not elected in accordance with Sec. IV, Art. 1, of the Constitution of the United States. They say that the times, places and manner of holding elections for Senators and Representatives were not prescribed by the *Legislature* of the *State* of California. The question was decided in favor of your Senators by every Senator except twelve. The House adjourned pending the question. I believe they will be eventually permitted to assume their proper stations on the floor as Representatives from California. They are getting crowded very much indeed in the capitol, and measures will soon be taken to enlarge the capital by extending the north and south ends about 150 feet each. Within another decade there will be several more States, and members will be uncomfortable. As for the Senate chamber, it is absolutely impracticable to take any more in. The long and short of the whole matter is, that they will have to build a new capitol out and out. Accommodations must eventually be made for the gentlemen from Mexico, Brazil, and Nicaragua and others, as well as for the Representatives from Oregon, New Mexico, Utah and Minnesota. I tell you what, old fellow, we are a great country. But the mail is about closing and so good bye till next steamer. Yours truly, ORIENT.

SUPERINTENDENT OF PUBLIC INSTRUCTION.—As yet sufficient returns have not been received to determine who is the successful candidates. One section of the State puts one man ahead, and the other gives "aid and comfort" to an opponent. The Transcript has taken the pains to collect together the different votes, so far as received, and foots them as follows:

Marvin,	3346
Nooney,	2632
Butterfield,	2436
Tracy,	2118
Brierly,	1972
Bateman,	1320
Huddart,	875

It will be seen that this gives J. G. Marvin, Esq., a clear plurality, thus far, of 714.

SALUTE AT BENECIE.—The citizens at Benecie had a grand illumination, and fired a salute, on Saturday evening, in honor of the admission of California into the Union. They got the news by the New World, Friday, and when the boat returned the next evening, there was a large crowd on the wharf boat to give Capt. Wakeman three cheers. The gallant Captain is deservedly popular among the Benecia folks.

RESIGNATION.—Mr. Gift, Collector of Foreign Mines's Tax, in El Dorado county, has sent in his resignation to the Governor.

CALAVERAS COUNTY.—The democrats have elected two members of Assembly in this county.

STEAMERS DUE.—The steamers Antelope, Republic, Northerner, and Gen. Warren, from Panams, are now due at this port.

NEW ENGLAND SOCIETY.—This society held a meeting on Saturday evening in the District Court room, Capt. I. T. Wilson in the chair. The constitution drafted by a committee appointed at a previous meeting was adopted, and the following officers elected:

President, Charles Gilman; Vice Presidents, Wm. H. Clark, John A. Collins, J. C. Derby, C. V. S. Gibbs, and Lucien B. Skinner; Recording H. L. Dodge; Corresponding Secretary, Louis R. Luld; Treasurer, Geo. W. Gibbs; Auditor, H. K. W. Clarke; Librarian, Wm. A. Dana; Executive Committee, O. N. Bush, John Satterlee, J. P. Treadwell, C. D. Cushman, Theodore Diamond, Robert Hopkins.

The Board of Managers was instructed to petition the Executive of this State to appoint, agreeable to the custom of the Pilgrim Fathers, a Day of Thanksgiving.

A committee was then appointed to confer with the committee of the Council, in order that the laity may unite in the celebration of the admission of California into the Union.

REPREHENSIBLE.—The contractors who are digging down Dupont street, near the St. Francis, are in the habit of leaving the excavations without any guards to prevent persons falling over the bank, a distance of six or seven feet. Friday evening a gentleman came near breaking his neck. Is the contractor aware that he would be responsible for any accident that might occur?

THE BALL.—The committee appointed to make arrangements for this affair, met yesterday afternoon, and appointed the necessary subcommittees, and named the evening of Tuesday the 29th inst. as the time.

LATE FROM SONORA.—We received per steamer Oregon, via the States, the Sonora Herald of July 27th.

IMPORTANT NEWS from NICARAGUA by the steamer California.—Hon. E. G. The Nicaragua route is by many a mile nearer to all the ports of the United States, and the salubrity of the climate must be deemed an advantage that Panama cannot possess."

EXTRACTS FROM MR TAYLOR'S "EL DORADO.

We promised our readers some extracts from this work when first received, in June last. They have lost none of their interest by keeping. In the visit to San Francisco in December last, Mr. T. made several excursions to the vicinity, which are well described—

The Russian Burying Ground.

'After a few days of violent rain, the sky cleared and we had a week of the most delicious weather I ever experienced. The temperature was at no time lower than 50°, and in the middle of the day rose to 70°. When the floating gauze of mist had cleared off the water, the sky was without a cloud for the remainder of the day, and of a fresh, tender blue, which was in exquisite relief to the pale green of the hills. To enjoy the delightful temperature and fine scenery of the bay, I used frequently to climb a hill just in the rear of the town, whence the harbor, the strait into Pablo bay, the Golden Gate, and the horizon of the Pacific could all be seen at one view. On the top of the hill are the graves of several Russians how came out in the service of the Russian Company, each surmounted with a black cross, bearing an inscription in their language. All this ground, however, has been surveyed, staked into lots and sold, and at the same rate of growth the city will not be long in climbing the hill and disturbing the rest of the Muscovites.'

The Laguna.

'In company with my friends, the Moores, I made many excursions among the hills, during this charming season. Our most frequent trip was to Fresh Pond, in the nighborhood of the old Presidio. With a gray donkey—an invaluable beast, by the way—harnessed to a light cart, in which we had placed two or three empty barrels, we drove out to the place, a little basin shut in by the hills, and only divided by a narrow bushy ridge from the waters of the Golden Gate. Several tents were pitched on its margin; the washmen and gardeners had established themselves there, and were diligently plying their respective occupations. A little strip of moist bottom adjoining the pond had been cleared of its thickets and was partly ploughed, showing a rich black loam. The washerwomen, of whom there were a few, principally Mexicans and Indians, had established themselves on one side of the pond and the washmen on another. The latter went into the business on a large scale, having their tents for ironing, their large kettles for boiling the clothes, and their fluted washboards along the edge of the water. It was an amusing sight to see a great, burly, long-bearded fellow, kneeling on the ground, with sleeves rolled up to the elbows, and rubbing a shirt on the board with such violence that the suds flew, and the buttons, if there were any, must soon snap off. Their clear-starching and ironing were still more ludicrous; but, notwithstanding, they succeeded fully as well as the women, and were rapidly growing rich from the profits of their business. Where $8 a dozen is paid for washing clothes, it is very easy to earn double the wages of a Member of Congress.'

The Mission Dolores.

'The valley about the Mission Dolores was charmingly green and beautiful at this time. Several of the former miners, in anticipation of the great influx of emigrants into the country and a consequent market for vegetables, pitched their tents on the best spots along the Mission Creek, and began preparing the ground for gardens. The valley was surveyed and staked into lots almost to the summit of the mountains, and the operation of squatting was performed even by many of the citizens of San Francisco, for the purpose of obtaining titles to the land. Some gentlemen of my acquaintance came into the possession of certain stone quarries, meadow lands and fine sheep pastures, in this manner; whereupon a friend of mine and myself, concluded to try the experiment, thinking the experience might, at least, be of some benefit. So, one fine morning, we rode out to the Mission, where we found the surveyor on one of the hills, chopping up the chapparel into "hundred vara" lots. He received us cordially, and on looking over his map of the locality, found two adjoining lots of two hundred varas each, which were still unoccupied. They lay on the western side of the Valley, on the slope of the mountains. We hastened away, crossed two yawning arroyas and climbed the steep, where, truly enough, we found the stakes indicating the limits of the survey. I choose a little valley, scooped out between two peaks of the ridge, and watered by a clear stream which trickled down through its centre. My friend took a broader tract, which was not so well watered as mine; however, on examining the soil, we agreed that it would produce good crops of cabbages and turnips. Accordingly, we marched very leisurely over the ground, ascended to its highest part, and took a seat on a boulder of gray rock, which stood exactly upon the line between our two territories. All the beautiful valley lay beneath us, with the bay beyond, a part of the shipping of San Francisco and Mount Diablo in the distance—a fine prospect for a squatter!

☞The London Times, of July 25th, in speaking of the future prosperity of California, and the vast commercial interest to be developed by the settlement of this country, uses the following language:

"Each account from California not only confirms, but adds to all previous anticipation of the growth of that territory, and of the success of those who have thronged to it, and the reflex action of these movements on other parts of the world are now beginning to manifest themselves with increasing force. In the Sandwich Islands, in Australia, along the whole coast of the Pacific from Valparaiso to Vancouver's Island, and even in China, the stir is distinctly felt, and the awakening life thus manifesting itself at the extremities of the commercial system, must soon be acknowledged most powerfully at its centre. Even if California were announced to-morrow to be a delusion, it would be years before the effects that have already been created by it would cease to operate; but the tidings received for a long time past have now convinced all persons that its riches have never been over estimated, and hence the inference is unavoidable that what has yet taken place is only the beginning of the changes to come.

CONFIRMED.—Among other recent confirmations by the Senate, is that of Elisha H. Allen, Consul to Honolulu. [Kennebec Journal.

Mr. Allen was for some years a representative in Congress from the Penobscot district. He is a lawyer of distinguished ability, and formerly in practice at Bangor; more recently, we believe, of Boston. We are glad to see the office of consul at Honolulu going into so worthy kinds. Our consular system has been heretofore exceedingly defective and inefficient, and it is some relief to see an occasional improvement.—With Messrs. Severance and Allen as our representatives at the Hawaiian Islands, we feel that our interests there are in perfectly safe keeping.

THE JEWS.—Isaac De Costa, a distinguished and learned Jew, of Amsterdam, estimates the whole number of Jews in the world, at from five to seven millions. He allots only 50,000 to the United States, where they are treated better than they are in any country in the world, except, perhaps, Turkey, which is much more liberal to them than any European Government.

A Jerseyman was very sick, and was not expected to recover. His friends got around his bed, and one of them says:

"John, do you feel willing to die?"

John "made an effort" to give his views on the subject, and answered, with his feeble voice:

"I think I'd rather stay where I'm better acquainted."

Sea-Weed for Food.—It appears that the miserable food resorted to by the starving peasantry on the sea coasts of Ireland, the common "seaweed," is becoming, even in England, extensively used. It is now forwarded by railroad from Shields to Manchester and Leeds, by women who gather it from the rocks at Tynmouth; and on arrival at its destination it is regularly sold in the markets from 3d. to 4d. per pound.

THE WORM THAT NEVER DIES.—The reflection that you have cheated the printer.—*English Paper.*

☞If this be so, and we do not see how it can be otherwise, we have quite a number on our books whose "reflections" will be none of the most agreeable. They would certainly prefer a flee in each trouser-leg, at church.

THE EMIGRATION.—The period is rapidly drawing near now, when a crowd of men who had limited their stay in California to two years, are about to start for home. They only await the coming rains, and as they do not intend to pay extravagant prices, they will embark from this port in sailing vessels at moderate rates. Before the next three weeks shall have gone round we shall see them here in crowds. The 'greasers" and "brants," sure presages of the coming rains, have already commenced their annual flight.

A VOLUME IN A LINE.—At a recent temperance celebration in Tennessee, a little lad appeared in the procession, bearing a flag, on which was inscribed—

"All's right when daddy's sober."

Portsmouth, Ohio, has nearly doubled her population since 1840, being now 4,228. Six other Ohio towns named have increased just 100 per cent.

The posthumous poem of William Wordsworth is now published. It is entitled "The Prelude, or growth of a Poet's Mind; an Autobiographical Poem."

THE PEOPLE OF THE STATE of California, District of the County of Santa Clara: Jose De Arnaz vs. Genoveva Garcia Mangel, Emanuel Mangel and Lorenzo Geoffrey. Petition to foreclose mortgage, &c.:

Whereas, JOSE DE ARNAZ filed in this Court on the 16th day of May, 1850, his petition, showing, among other things, that on the 20th day of December, 1849, Genoveva Garcia Mangel, the wife of Emanuel Mangel, was the owner in fee of a certain house and lot in San Jose, adjoining and in the rear of the house lately occupied by Messrs. Larrain, Benitez & Co., and fronting on Garcia street, did on that day mortgage the same, with the consent of Emanuel Mangel, her husband, to said Arnaz, to secure the sum of five hundred and sixty dollars, payable four months from date: That afterwards, on or about the 15th day of January, 1850, said Emanuel Mangel and Genoveva G. Mangel executed a mortgage on the same premises to one Geoffrey, of San Francisco, for about fourteen hundred dollars; which said mortgage was falsely dated the 19th of December, 1849, with intent to defeat the prior mortgage lien on said real estate, and to cheat and defraud said petitioner out of his debt. Said petitioner prays discovery and full answer to the above facts, that said mortgage to Geoffrey be set aside as fraudulent, and that said premises be sold to pay petitioners's mortgage, and for general relief.

And it being proved by affidavit to the satisfaction of this Court that Emanuel Mangel is a non-resident of this State, notice is hereby given to Emanuel Mangel to be and appear before the Honorable Court of the Third Judicial District, for the County of Santa Clara, on the fourth Monday of December, 1850, at the court house in San Jose, then and there to answer said petition, or, in default thereof, the allegation therein contained will be heard in your absence and decreed accordingly.

Given under my hand and private seal, there being no seal of office yet provided at this office, this 24th of May, A. D. 1850.
